

I am writing to voice my concern that Low Power FM radio stations are potentially going to override the frequency of K-LOVE Christian radio. K-LOVE is a tremendous influence and encouragement in my life, and I do not feel that replacing it with potentially non-family friendly programming is the appropriate course of action. K-LOVE services my listening area by promoting morality and offers encouragement to hundreds of thousands of listeners all around the world and in the USA. Thank you for hearing my concern.
